

Pinewoods Camp, Inc
COVID Guidelines for Campers
Updated March 1, 2024

Here are the updated COVID guidelines for attending Pinewoods Camp for the 2024 season. **We reserve the right to make changes to this policy in response to potential changes in COVID conditions.** Program Providers may choose to apply their own additional guidelines that may be stricter than what we outline here and, if so, we will support their decisions. But at a minimum, to attend Camp, we require the following:

VACCINATIONS

COVID-19 vaccinations and boosters are not required for the 2024 season. However, we do encourage all eligible campers to get the most recent vaccine/booster.

TESTING

- Campers are required to bring a minimum of 4 rapid antigen tests per person for sessions lasting 4+ days, and 3 tests for sessions lasting 3 days or less. *Please note that this minimum amount includes extra tests in the event of the need for additional testing.*
- Campers and staff staying 4 days (3 nights) or longer will take a COVID test (rapid antigen or NAAT: 1) upon arrival at camp, 2) 24 hours after arriving at camp, and 3) 48 hours after arriving at camp.
- For sessions 3 days (2 nights) or less, campers will test twice: 1) upon arrival at camp, and 2) 24 hours after arriving at camp.
- We strongly encourage testing prior to departing for camp, especially for those traveling long distances.

MASKING:

- Masks are optional for the 2024 season however they are strongly encouraged for the first 24 hours of each session. *In this community, masks are welcome for as long as an individual wants or needs to wear them.*
- Please **bring a supply of high-filtration masks** (N-95, KN-95, etc.) in case COVID conditions change and wearing masks is required.
- If a camper/campers test positive for COVID, campers, PP staff, and crew may be required to wear high-filtration masks.
- Campers may be asked by PCI to wear high-filtration masks whenever engaging in any camper jobs in the kitchen or dining hall at PCI's discretion.

PRIOR TO COMING TO CAMP

- By attending Camp, campers and program providers agree to the points on the [PCI Attestation](#). Anyone not able to say "yes" to each point should have a conversation with their Program Provider.
- In the week prior to arriving at Pinewoods, we kindly ask incoming campers and Program Provider staff to wear high-filtration masks in **indoor** public areas (grocery stores, movie theaters, concerts, public transportation, dances, etc.).

We look forward to dancing, singing, and enjoying music with you this season.
